

AQUATEC

The AQUATEC Bathlift

The latest technology for safe and carefree bathing. The **Aquatec** bathlift comes from a family of high quality bath products.

Aquatec is a battery powered bath seat that will lower and raise you again in your tub. Enjoy a long soak and the therapeutic effects of a warm bath. With a reclining back, optional seat widths and back laterals, the **Aquatec** is perfect for those with special bathing needs. The hand remote has easily identified up and down buttons and low power indicator. The lithium-ion battery is in the hand control for convenient recharging. Self release suction cups adhere securely to smooth tub floors and the seat flaps will rest on the top of the tub to allow a stable transfer.

Features

Non-slip surface

- Backrest with built-in neck support
- Lithium-ion battery with discharge protection, has no memory effect
- Self release suction cups
- Reclining back support up to 40°

Components

Aquatec models include a unit to fit standard size tubs, **Aquatec Wide** model for whirlpool style tubs, a back with adjustable side laterals, known as a RSB model and **AquatecXL** model with a 400 pound weight capacity.

All models use a state-of-the-art hand control with integrated battery. The latest lithium-ion manganese-based rechargeable battery pack has total discharge protection and no memory effect. A low battery indicator will light on the hand control when the battery needs to be recharged. A safety feature will not allow the lift to lower when there is not enough power to rise again.

A high backrest with molded neck support can be folded forward by just one hand. The maintenance-free actuator is both powerful and silent. **Aquatec** has a stable and rust-free frame, reinforced lifting scissors and bottom plate.

Aquatec has a non-slip textured surface and comes with removable, washable covers. The bathlift disassembles into easy to carry parts; back, seat and hand control.

Accessories

Positioning accessories include a head support, abductor block, chest belt, seat belt, and wedge cushion. A rotary seat with transfer board can help make transfers smoother; height adapters will add up to 3" of base height for deeper tubs. Ask your dealer for more details on each of these products.

Warranty

Aquatec has a limited three year warranty against manufacturer's defects.

Covers, battery and suction cups are excluded.
