

CARE BAG

*What can you say about bedpans, they stink and they are disgusting. No one wants the job of emptying the pan or pail. But you never have to spill a commode pail again. Simply line the collection pail with a **Classic Care Bag** and cleanup is easy. The **Care Bag** system eliminates spilling, odor and the spread of bacteria caused by handling a full bedpan or pail.*

Don't have a bedpan?...

Use a VOM bag for upset stomachs.

URI bags are used as a personal male urinal.

Features

Care Bags come in sizes to fit commode pans and pails, or for personal use. Each bag comes with a GelMax absorbent pad that quickly absorbs up to 16 oz. of human liquids and odors. All liquid collected is converted to a gel. Cleanup is as easy as tying the bag closed and disposing in the trash.

- 3 Styles
- Eliminates or reduces odors
- Liquid is converted to gel, no spilling
- 30 second bedpan cleanup

Completely line/cover a bedpan or collection pail.

*Liquid is absorbed and converted to gel.
