

The LEGACY

Dolomite developed the **Legacy** to accommodate a wide variety of users with the most standard features for the best value. The design incorporates these features: flip-up seat with security latch, folding frame, adjustable handles and wide wheels. With choice of color and an extensive accessory line, the **Legacy** looks smart strolling down the sidewalk.

Frame

The strongest frame on the market, **Dolomite** welds the steel frame for greater durability, no screws to loosen at joints. **Legacy** is available in two colors, Metallic Blue or Candy Apple Red. There are three frame sizes to accommodate individuals of all sizes. **Dolomite** frames are easily folded for storage or transportation. The handles are height-adjustable in 4 increments. **Frame is warranted for 2 years against manufacturers defects.**

Braking

Legacy comes with the patented **Dolomite** Automatic Braking System with adjustable tension for varied grip strength. Brake handles have wide flange and large loops for comfortable hand positioning. When parked and using the seat, pushdown the handle to set the parking brakes. The brake mechanism is located within fork for protection from damage. Accessory slow down brake provides adjustable tension for hilly terrain or to even out direction of travel for stroke patients. **Warranty is 5 years on brake handle assembly.**

Standard Features

Legacy supports 350 pounds which is 75 pounds more than the majority of the other rolling walkers. Other standard features are:

- Removable basket with carry handle
- Flip-up seat for greater reach or gait training
- Seat handle releases to fold walker
- Magnetic seat latch secures against accidental closure
- Foam grips for comfortable and secure grip
- Flexible and adjustable back strap
- 8" indoor/outdoor tires
- Curb climber on rear wheel assists in lifting the front of walker
