

Alliance™ Slings

Universal Sling

This "Split Leg" sling is designed to meet most general patient lifting needs and can easily be applied or removed from a patient while seated or reclining. Available in both mesh and deluxe padded versions, the universal sling features six-point connectivity. The universal mesh sling is designed to allow maximum breathability and quick drying for bathing applications. The deluxe padded sling is designed to provide more comfort at the pressure points.

Universal Mesh Sling

19501 Medium, 400 lb (181kg) max.
19502 Large, 400 lb (181kg) max.

Universal Deluxe Padded Sling

19504 Medium, 400 lb (181kg) max.
19505 Large, 400 lb (181kg) max.
19506 Bariatric, 600 lb (272kg) max.

Hammock Sling

This deluxe padded sling features six-point connectivity and provides additional support to the entire body and is the best choice for patients with limited muscle control.

19508 Medium, 400 lb (181kg) max. **19509** Large, 400 lb (181kg) max.

Toileting Sling

This deluxe padded sling is designed to provide unobstructed access to the perineal area, while allowing easier clothing adjustments than standard commode opening style slings.

19512 Medium, 400 lb (181kg) max. **19513** Large, 400 lb (181kg) max.

Stand Assist Sling

This deluxe padded sling features soft support panels under the arm and lumbar area for added comfort. The unique cross over strap and non-slip inner pad insure the sling stays in place and does not ride up during lifting. An optional buttocks strap is available for initial lift assistance.

19515 Standard, 30"-50" (76cm - 127cm) torso
19516 Large, 38"-62" (97cm - 163cm) torso
19517 Buttock Support Strap

Pediatric Sling

Available in both mesh and deluxe padded versions, the pediatric sling is designed with head support and a padded belt to cradle the patient in a secure non-slip position.

19500 Standard Mesh, 18"-28" (46cm - 71cm) torso 100 lb (45kg) max.
19503 Standard Padded, 18"-28" (46cm - 71cm) torso 100 lb (45kg) max.

Invacare® Compatible Sling

Available in a mesh or solid body style with or without commode opening, this four-point connecting sling is compatible to the sling size and weight specifications offered by Invacare®.

Mesh Full Body Sling

19110 Medium, 450 lb (204kg) max. **19111** Large, 450 lb (204kg) max.
19140 Bariatric, 600 lb (272kg) max.

Mesh Full Body Sling with Commode Opening

19114 Medium, 450 lb (204kg) max. **19115** Large, 450 lb (204kg) max.
19116 X-Large, 450 lb (204kg) max. **19141** Bariatric, 600 lb (272kg) max.

Solid Full Body Sling

19112 Medium, 450 lb (204kg) max. **19113** Large, 450 lb (204kg) max. **19117** X-Large, 450 lb (204kg)

ALLIANCE™ PATIENT LIFTS

Alliance™ Patient Lifts, Slings and accessories are designed to provide the utmost in safety, comfort and affordability to the caregiver and patients. All Alliance Patient lifts and slings are ergonomically designed to make patient transfers as simple as possible. Alliance HE, the homecare edition line of patient lifts, finally offers innovation and affordability to the homecare market:

a homecare lift that can easily be converted from a hydraulic to battery-powered lift with no tools required. Built for years of trouble free use, the Alliance HE lifts feature the same high quality construction as our other Alliance lifts, yet allows your customer to upgrade to a battery-powered version at an affordable price.

Easily converts from hydraulic to battery power, allowing upgrades at any time!

Alliance™ HE Hydraulic & Battery-Powered Lifts

- Easily converts from hydraulic to battery power, allowing upgrades at any time
- Quick-snap connections require no tools
- Six-point multi-tilt spreader bar offers additional stability and comfort
- Unique foot pedal base opening for wheelchair/commode access
- Pump pivots to both sides for caregiver convenience
- Low 4.5" (11cm) base height provides maximum stability and fits under newer, lower-clearance beds
- Large easy-to-grip handles allow for superior maneuverability
- Can be easily disassembled for transport
- 400 lb (181kg) safe working load
