

- **Frame:** Custom made-to-measure aerodynamic kneeling frame in choice of 3 styles and removable fork.
- Frame Tubing:** Ovalized 6061 T6 aluminum aircraft tubing and aluminum fork for travel that is super stiff.
- Seat Width:** Custom-see pricelist and drawings.
- Seat Depth:** Custom-see drawings.
- Footrest:** Custom-see drawings
- Wheels:** Available with 26" high performance wheels and high pressure clincher tires with threaded axles. Carbon fiber wheel upgrade available. Please see order form for details. Optional thorn resistant tire protectors available.
- Camber Angle:** 0,3 or 9 degrees
- Back Height:** Custom back height/backrest to knee
- Power:** The Force K hand-cycle is propelled manually. The propulsion system has external gearing and features a combination of Shimano and Top End components, 27 speeds, 48-40-28 chain rings and 11/32 cassette. The 11/32 cassette is operated by the Hands-On Rapid Fire unit which is mounted on the right hand-pedal. It operates both the 11/32 cassette and the hands-on brake. A manual de-railing system operates the top chain-rings utilizing a manual system which eliminates cables and their maintenance. The Top End V crank set incorporates aluminum crank arms with a re-designed oversized bottom bracket spindle, which reduces weight but maximizes stiffness. The V cranks also feature integral pedal bearings and are offered in widths of 16", 18", 20" or 22" and lengths of 180mm, 190mm, 200mm, 210mm, 220mm or 230mm which will maximize pedal power strokes. Designed to allow the user to change widths and length with ease. See order form for more details. Our exclusive (made just for Top End) ramped and pinned chain rings deliver unprecedented ease of shifting. Optional cassette choices of 11-21, 11-23 or 12- 26 and chain

rings 53-40 or 53 available.

Handle Style: Ovalized aluminum with integral pedal bearings. Optional power plates available.

Seat To Floor Height: Custom

Turning Radius: 18 feet for 360 degree circle, 12 feet with one backing maneuver.

Product Weight: 25-27lbs. depending on size and options.

Product Weight Capacity: 250 pounds

Shipping Product Weight: 65 pounds

Overall Length: custom

Warranty: 3 year warranty on frame and fork to original owner/limited parts warranty.

Safety System: The Rapid Fire hands-on shifter/brake unit is mounted on the right hand pedal. A parking brake/second brake is mounted the fork. In addition to the brakes the following safety items are included: drafting bumper, reflectors, footrest safety straps and seat restraint with hook and loop fastener. Safety options available include: chain guard, mirror, safety flag, helmet, safety light and hydration systems.

Color: Frame and fork are painted the same color in a choice of 18 exciting colors.
