### **3.4 Recharging the Battery**

**To recharge the SmartView Pocket:**

- Connect the power supply to one end of the USB cable.**
- Connect the other end of the USB connector to the SmartView Pocket's USB port.**
- Plug the power supply to an electrical outlet.**

**The SmartView Pocket needs to be plugged in for approximately 3 hours to reach full charge. The charger light will turn off when fully charged.**

**Once fully charged, the SmartView Pocket can be used for a period of about 3 hours.**

### **3.5 Connecting to a TV screen**

**If you wish to view the magnified image on a larger screen, you can connect the SmartView Pocket to a television. To do so, plug the RCA video cable's single connector to the SmartView Pocket's A/V port located on the left edge. Plug the yellow (video) connector to video input port on your television. The remaining sound connectors are not used.**

**Warning: Avoid exposure to moisture, rain, sand and extreme temperatures**
