INTRODUCING

THE KERRI BEAR MATERNITY BASSINET™

Door accessories not included

Easy to handle and easy to clean, the **Kerri Bear Bassinet™** is the ideal choice for hospitals looking for a versatile, stylish, and long-lasting bassinet. It comes equipped with an infant carrier, a unique convenient integrated changing table, and a spacious lower cabinet allowing for storage so that the surrounding area can be kept neat and organized.

Beautifully designed and skillfully crafted to fit perfectly into the maternity ward of your hospital, the **Kerri Bear Bassinet™** is manufactured from the highest quality materials to provide a safe and comfortable surrounding for the infant.

To prevent the spread of dangerous micro-organisms and to suppress the growth of mold and bacteria, the **Kerri Bear Bassinet™** is manufactured with our specialized protective powder coating which has been thoroughly laboratory tested to significantly decrease microbial population.*

*Laboratory documentation available on request.

The **Kerri Bear Bassinet™** is available in an array of delicate colors including:

- Designer White
- Silverpine
- Featherstone
- Shadow Blue
- Mauve Blush

These standard colors use lead-free, anti-bacterial paint¹ which reduces the risk of cross contamination.

Designer White

Silverpine

Featherstone

Shadow Blue

Mauve Blush

Most standard color bassinets are in-stock for immediate delivery.

To complement the existing design of your maternity ward, a selection of custom colors are also available.

1. For anti-bacterial paint specifications - please contact our office. We guarantee that the paint used is lead free.

INTRODUCING

THE KERRI BEAR MATERNITY BASSINET™

Product Details

Base Cabinet

- Easy-pull handles reveal a base cabinet with a large amount of storage space - perfect for quick access to supplies and materials.
- Magnetic catches secure doors closed.
- No wood or laminate materials are used that can often trap debris and not withstand some of today's more aggressive disinfecting chemicals².
- An optional shelf is available.

2. Chemical disinfecting agents often result in damage to wood and cause laminate surfaces to lose their adhesive properties. The Imperial Surgical powder coat surface is extremely durable, however, with any chemical cleaner we recommend that you review the respective cleaning instructions to ensure proper safe application and results. It is the user's responsibility to test and verify product compatibility.

Basket Features

- Bassinet frame and carrier are fully welded and painted with a baked protective anti-bacterial polyester powder coating.
- With a simple pull of a safety switch the basket carrier slides back easily to expose the convenient Changing Table. The safety switch also serves as a locking mechanism to prevent movement during transport.
- The Carrier frame is designed to accommodate three basket positions: Neutral, Trendelenburg and Reverse Trendelenburg.

Casters

- Heavy duty 3" (76mm), non-marking, grey rubber casters, allows for excellent maneuverability of the bassinet (Casters: 2-Swivel, 2-Total Lock).

Mattress / Basket

- The **Kerri Bear Bassinet™** is available with two mattresses - one for the basket and one for the dressing section.
- Mattresses contain medium density foam, made with anti-bacterial material that is fire retardant and provides support and comfort to the infant.
- The Changing Table has a three-sided guard rail so that the mattress is secured to prevent sliding while attending to the infant.
- Basket and mattresses are sold separately.

Safety Switch
