

# seca 206

## Roll-up measuring tape with wall attachment

- Space-saving roll-up mechanism.
- Simple read-out of results through display window.
- Durable tape made of metal.

**seca 206:**

When the quality is right,  
so are the measurements.

**W**hile measuring rods, stadiometers and circumference measuring tapes are relatively simple devices, they still must fulfill challenging clinical requirements. Whether the devices are for in-patient or mobile use, they all share the same premium quality of the seca brand. A quality you can touch and see – in devices that don't warp after years of use, and continually deliver precise measurements, every time and everywhere.

### The space saving solution with roll-up mechanism.

The roll-up measuring tape seca 206 with wall attachment. Uncomplicated fixing on wall with just one screw. With the display window in the head piece, it's easy to read-off the height. The durable tape is made of metal.

*The wall mounting of the measuring tape with roll mechanism reduces space requirements drastically.*
