

MedicalWear pre-sized gloves are designed to provide compression therapy in edema reduction.

MedicalWear pre-sized gloves provide gradient pressure. Contracture seams provide intimate contact to dorsal web spaces.

Features and Benefits:

- Convenient ready-to-wear range with six adult sizes available
- Choose from 2 styles - standard and wrap-around closure
- Ambidextrous - fits right and left hand
- Flattened seams for added comfort minimizes pressure over newly formed sensitive skin
- Cool and light, the open weave fabric allows the skin to breathe
- Soft VELFOAM® wrist closure on the wrap-around closure glove

Indications:

- Interim therapy for the control and reduction of edema
- Provides relief for arthritic symptoms of the hand

Standard Style

Wrap-around Closure

Measuring Information

1. Select RIGHT or LEFT hand measuring template.
2. Center pencil (or similar post) at point (P) to act as stop. Place patient's hand, palm down, on the illustrated hand template and butt web space between middle and index fingers up against stop at (P).
3. Press patient's fingers together.
4. Trace horizontal line from tip of middle finger (T) to glove size diagram.

5. Trace vertical line up from base of little finger (B) to glove size diagram.
6. Find exact glove size at intersection of vertical and horizontal lines in glove size diagram.
7. Reference glove size and style to Ordering Information.

NOTE: Although right and left hands must be measured on individual templates, Pre-sized Gloves are common to both right and left hands.
