

SEATING MATTERS

## Accessory brochure

With the Seating Matters™ portfolio, we carefully consider the needs of the caregiver and ensure that our chairs are simple to operate and use. Every feature and accessory helps to create an overall effortless experience with adjustments that can be made without tools in less than one minute to suit a new user.

## Head supports

Designed to support and encourage midline head positioning, for those with flexion, hyperextension of the neck, or poor head control. Available in three different styles to provide maximum comfort and support for different types of clients.

PN1208 Concave pillow

PN452 Head pillow

PN1207 Horseshoe pillow

## Lateral supports

Designed for postural support. They can be used to encourage a midline posture when the patient is leaning to the side and cannot independently correct their position and help reduce development or further deterioration of scoliosis, as well as promoting midline sitting for those that tend to lean to one side.

PN1206 Lateral supports

PN1905 Bariatric lateral supports

## Leg supports

Helpful for clients whose legs abduct and externally rotate. These also protect the feet from injury or objects in the path of chair movement, while keeping the feet supported on the footplate. The padding on the footplate of the chairs provides additional pressure management, improves foot positioning and further decreases the seat-to-footplate height for individual users. Additionally, both the regular and bariatric leg rest wedges keep the legs elevated at an appropriate angle.

PN522 Leg lateral

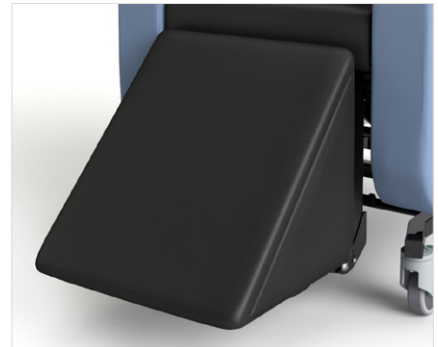

PN463 Padded footplate

PN447 Leg rest wedge

PN449 Bariatric leg rest wedge

Atlanta™

Milano™

## Padded arm covers

Padded removable arms decrease the width of the chair to accommodate users with particularly narrow hip widths. This also assists in the cleaning and maintenance of the chair and adherence to infection control policies.

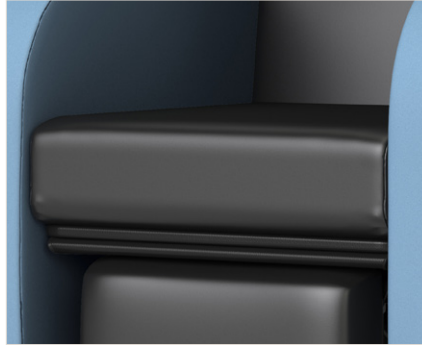

- PN487 Padded arm covers
- PN571 Bariatric arm covers
- PN489 Padded arm covers

## Seat cushions

Provides built-in pressure management with the flexibility to add an alternative pressure management cushion without compromising the chair's dimensions.

- PN1103 18" seat cushion
- PN6 20" seat cushion (used when width of chair is increased)
- PN366 30" standard bariatric seat cushion

## Seat covers

Instrumental in keeping the chair clean and adhering to infection control protocols, especially with clients who suffer from incontinence. They can be removed and sterilized, or replaced as necessary.

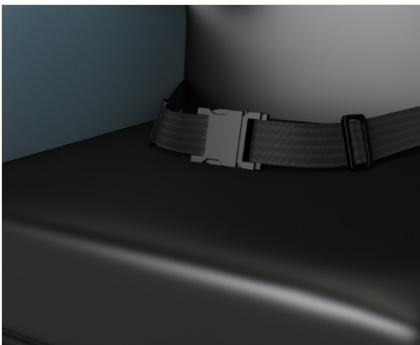

- PN471 Removable seat
- PN472 Removable seat cover
- PN479 Bariatric removable seat cover

## Seat belts

The seat belts are designed to help prevent sliding and reduce the risk of fall injuries.

- PN1212 Standard seat belt
- PN1213 Bariatric seat belt

- PN456 4-point hip seat belt

- PN460 Padded seat belt

## Other accessories

PN1209 Tray table (for meals, positioning support and facilitation of activities)

- 

PN528 Handset holder (can be hung on the chair and creates a safe place to keep the hand control; easily disinfected)

- 

PN822 Catheter hook (special order only)

- 

# Accessory compatibility table

Identifying what accessories are associated with your desired chair allows you to create a seating solution that fits your needs. Please see below for accessory compatibility.
