GENERAL EXPLANATION OF CHAIR

USER GUIDE

! Prior to use, please read all instructions. We recommend you keep this user guide in a safe place for future reference.

SET UP

Chair Assembly

Place the seat face down on a level surface. Insert the legs into the frame. Depress brass button and push tube until it clicks into place. (A)

Insert the L-shaped back tubes into backrest tubes until brass button clicks into place. (B)

Turn the chair on side so tubing holes are facing upward. Insert (C)

Place chair upright so it's resting on all four legs and insert arms into frame. Depress both brass buttons and push down until the brass buttons click into place. Repeat for opposite arm. Arms should curve inwards toward each other.

Use the push buttons and numbered holes to adjust the stool to the desired seat height. Be sure seat is level, stable and all buttons are full engaged before using.

Adjust Leg Height

Adjust leg height by pushing button and sliding tube up or down. Height will adjust one hole at a time. Ensure all legs are adjusted to same height.
