

Midline Full Recliner Model: MID

When Comfort is Essential

A Cost Effective Chair with Multiple Positioning Capabilities!

- BRODA Comfort Tension Seating® helps **reduce pressure and allows for heat and moisture exchange, creating long term comfort.**
- Up to 38° of infinitely adjustable tilt in space and 90° degrees of back recline help **control slumping, sliding and falls without the use of restraints.**
- Full positioning capabilities help **reduce time and effort required of caregivers.** Residents can **socialize, eat and take a nap all in one chair.**
- Easily adjustable arm height, legrest length and padding accommodates various residents.
- 16 gauge tubular steel frame ensures **durability** and helps **reduce chair maintenance and replacement cycles.**

An ideal chair for hospice residents
