**Instructions for Use**

### Installing the Scalpel Blade
- Press button to expose blade key. *(Method A, B or C)*
- Insert blade key into blade lock hole.
- Release button to secure blade.

### Ejecting the Scalpel Blade
- Hold scalpel above a disposal container.
- Press button to release blade.

### Disassembling the Scalpel
With blade removed, hold handle and push down on hard surface.
- Blade bar ejects.

### Assembling the Scalpel
- Drop blade bar into the handle.
- Shake handle gently to orient blade bar in the exit hole.
- Press the button to lock the blade bar into place.

### Removing an Adhered Blade
Dried contaminants may prevent a blade from releasing.
- Press button. Insert any metal object between blade and handle.
- Release button over disposal container.
