

Cannulas

- Curved nasal prongs for comfortable, natural fit
- Clear material for inconspicuous use
- “Bolo style” slide for patient adjustment
- Six channel, star lumen tubing design eliminates kinks
- Latex free to protect sensitive skin
- NEW! Ultra soft adult cannula offers ultra-soft touch fit for the ultimate in comfort
- Adult Micro Cannula - super lightweight and compact, ideal for patients with flow rates of 3 LPM or less
- Demand Cannula - one nasal prong senses inhalation while the other delivers oxygen. Smooth bore tubing enhances sensitivity of the inhalation effort

+ REDUCE YOUR INVENTORY

Purchase economical 7' cannula (#220-1607) and attach supply tubing to achieve desired length

Lowers overall cost & reduces inventory requirements

Adult	Cannula Only	2" tubing connector	50/CS	#220-1602
Adult	Cannula	4' safety tubing	50/CS	#220-1604
Adult	Cannula	7' safety tubing	50/CS	#220-1607
Adult	Ultra Soft Cannula	7' safety green tubing	50/CS	#220-1617
Adult	Cannula	25' safety tubing	25/CS	#220-1625
Adult	Micro Cannula	7' safety tubing	50/CS	#220-1707
Adult	Demand Cannula	4' safety tubing	25/CS	#220-1804
Infant	Cannula	7' safety tubing	50/CS	#220-1737
Pediatric	Cannula	7' safety tubing	50/CS	#220-1757
	EarMates	Charcoal	50/CS	#220-1560

+ MAXIMIZE SENSITIVITY

Using a conservator? Maximize the sensitivity with a 4' Cannula

Oxygen Supply Tubing

#220-1025

- Designed to maximize concentrator and liquid system flow output
- Safety green tint for easy visibility on 25' and 50' tubing lengths
- Kink-resistant, six channel star lumen design prevents occlusion
- Standard connectors for universal fit
- 85 durometer material inhibits twisting
- Latex free

Oxygen Supply Tubing	Clear	7' length	50/CS	#220-1007
Oxygen Supply Tubing	Clear	14' length	50/CS	#220-1014
Oxygen Supply Tubing	Safety Green	25' length	25/CS	#220-1025
Oxygen Supply Tubing	Safety Green	50' length	20/CS	#220-1050
