

# PT Series

BARIATRIC RATED HI-LO TREATMENT TABLES

## Helps you achieve ADA Tax Credit

"OAKWORKS® PT Series table's low 18" height range is ideal for lower patient positions often necessary for manipulations, NMRs and ADLs that require the therapist to establish treatment planes with significant leverage and it makes wheelchair transfers safe and easy. Its sturdy base enhances the therapist's ability to establish effective manipulation vectors while being ergonomically adjustable to ensure safety for both the patient and the therapist."

~ Robert DuVall, PT, DHSc, ATC,  
OCS, FAAOMPT CSCS
