## **Diversey Announces MoonBeam™3 Effective Against SARS-CoV-2 in Seconds**

[Diversey, Inc.](#), a global leader in healthcare and infection prevention solutions, today announced it has received confirmation through third party testing that MoonBeam™3 UV-C disinfection technology is effective in just seconds against SARS-CoV-2, which causes COVID-19.

MoonBeam™3 is an ultraviolet-C disinfection device that adds assurance beyond manual cleaning and disinfection. This portable, powerful solution disinfects quickly, reliably and responsibly. MoonBeam3 is cost-effective and designed for fast disinfection of public and high risk areas. The system offers three individually-adjustable arms that can be positioned at almost any angle, optimizing disinfection energy to allow dosing of both horizontal and vertical surfaces, in just 3 minutes.

MoonBeam3 has undergone third party testing against several microorganisms including enveloped viruses, small non-enveloped viruses, bacteria and bacterial spores. These tests have demonstrated a significant log reduction in these key pathogens.

Since studies have shown that contamination of environmental surfaces in healthcare facilities with SARS-CoV-2 viral RNA is widespread, Diversey commissioned 3<sup>rd</sup> party testing of MoonBeam3 in the US, and has also partnered with the highly respected Fujita Health University in Japan, to test the effectiveness of the MoonBeam3 against SARS-CoV-2. The completed test results from Japan proved that MoonBeam3 was effective against SARS-CoV-2 under a range of conditions with contact times as low as 4 seconds for a 6 log reduction.

This study validates that MoonBeam3 is effective against SARS-CoV-2, the pathogen that causes COVID-19.

### **About Diversey**

Diversey's purpose is to protect and care for people every day. Diversey has been, and always will be, a pioneer and facilitator for life. We constantly deliver revolutionary cleaning and hygiene technologies that provide total confidence to our customers across all of our global sectors, including: cleaning products, systems and services that efficiently integrate chemicals, machines and sustainability programs. This makes us unique among leading global hygiene and cleaning companies. Everything we do has our customers' needs at its heart and is based on the belief that cleaning and hygiene are life essentials. With over 95 years of expertise, we safeguard our customers' businesses, contributing to productivity improvements, lower total operating costs and brand protection.

Diversey is headquartered in Fort Mill, SC, USA. For more information, visit [www.diversey.com](http://www.diversey.com) or follow us on social media.
