ET2611

Tandem

CREATING A CYCLE OF mobility

Inseam Range: 18" - 28"

The ET2611 is our adaptive tandem tricycle that is built for two. Great for riders aged 7 and up, this bike allows a parent or friend to propel and control the bike from the back position all while being able to easily supervise the front rider. Meanwhile, the front rider gets to enjoy the therapeutic and recreational benefits of riding.

ET2611 MODEL SPECIFICATIONS	
Rider Age	7+
Max Load (lbs)	400 Combined
Bike Weight (lbs)	130
Frame Height	54"
Total Length	103"
Bike Width	41"
Step-Through Height	18"

Measurements Include High Back Seating

Sizing Guide: Inseam 18" - 28" (front rider)

Tips For Configuring an Adaptive Bike

1. Measure Inseam

The measurement we use to ensure each rider gets the correct size of adaptive bicycle is called an inseam. To find an inseam, measure the distance between the bottom of the rider's heel to the top of the rider's inner thigh. Make sure the rider's inseam measurement matches the inseam range for the adaptive bicycle.

2. Know Your Accessories

We offer many different accessories to help people of all abilities experience freedom. Make sure to look through all of our available accessories to make sure the adaptive bike will work for the rider. More information on all of our accessories is available at: www.freedomconcepts.com/product-lines/adaptive-bikes/accessories/

3. We Do Custom

If none of our current models of adaptive bicycles work for you, we are able to custom build a bicycle that will. Please contact us at 1-800-661-9915 for more information.

	<p><i>Push yourself further with the electric assist motor. Perfect for getting up hills and long distance.</i></p> <p>*Requires Rear Platform *Controlled by rear rider</p> 

Front Rider Seating System

Please Fill Out Either The Child Set Up or The Adult Set Up
Please note that all seat bases come with a seat belt and all highback backrests come with a chest strap

Child Seat	12.5" width, 12.5" depth
Child High Back	13" width, 18" height
Child Low Back	13" width, 7.5" height
Adult Seat	16.75" width, 14" depth
Adult Low Back	18" width, 10" height
Adult High Back	18" width, 18" height

The 2" raised pommel keeps riders further back in their seats while helping with stability and promotes leg abduction.

A narrow seat aids in clearance and in pass-through. The nose of the seat is slightly narrower to aid with pedaling.

The standard seat will fit and function for most riders.

CHILD SET UP	ADULT SET UP
Seat Base	Seat Base
Child Seat (2114060) (STD)	Adult Seat (6114015) \$115
Child Narrow Seat (6114014) \$115	Adult Narrow Seat (6114017) \$115
