

EW-M34 FOUR WHEEL PORTABLE MOBILITY SCOOTER

DESCRIPTION

If you are looking for a mobility scooter that is both affordable and stylish, look no further than the EW-M34! It's the best value, longest-range and lightest-weight four-wheel travel scooter on the market today! (The heaviest piece is 28 lbs.)

The EW-M34 can be mounted on a carrier for easy transport, or disassembled and stored in the back of vehicle or trunk. It disassembles in seconds with just 4 easy steps, making transporting it from one destination to another a breeze! Like magic, your scooter becomes 5 easy to carry pieces!

For easy charging and to get you on the go fast, the battery can be charged on or off the scooter. The EW-M34 design, stability and reliability makes this scooter an excellent choice when looking to purchase a portable four wheel scooter!

Backed by our best-in-class warranty and service terms, the EW-M34 is manufactured with the same high-quality materials and craftsmanship that EWheels Medical is known for. We have been making scooters for more than 10 years and every mobility scooter meets FDA criteria, goes through our rigorous inspection and quality control process for safety, durability, quality and handling. What's more, every finish is lovingly crafted for the greatest visual appeal. If it doesn't turn heads, it's not ours!

EWheels Medical, Quality you can count on, designs you can love!
