

NEW!

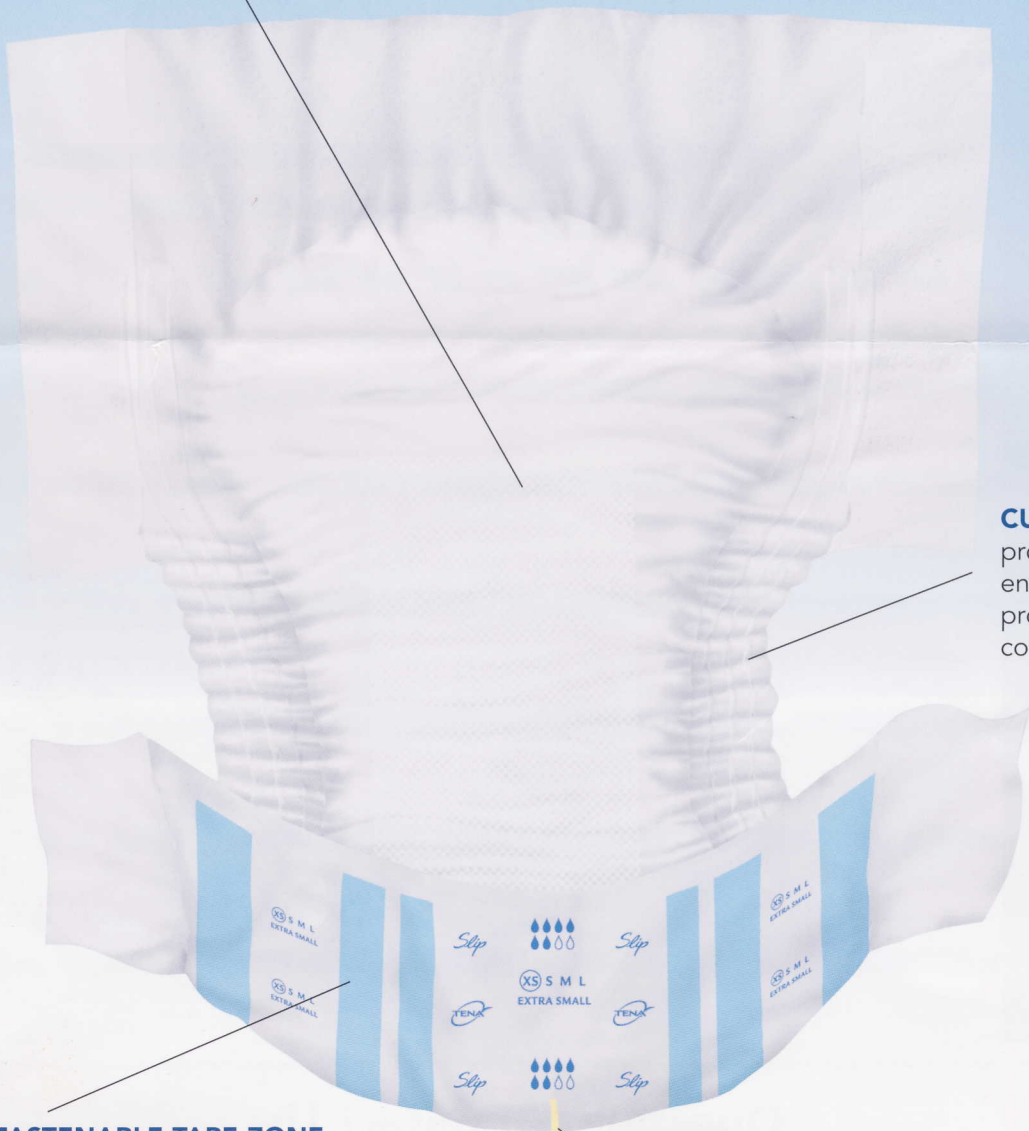

TENA[®] Youth Brief

INSTADRI SKIN-CARING SYSTEM™

improves surface dryness, promoting healthier skin.

- Transfer layer permits fluid to almost instantly enter the dual core.
- Dry-Fast Dual Core™ technology rapidly wicks fluid away from skin.
- Strategic placement of Super Absorbent Polymer improves fluid retention.

CURVED ELASTICS provide a better fit, enhanced leakage protection and more comfort.

SUPERFIT™ REFASTENABLE TAPE ZONE with Printed Positioning Stripes

Allows for accurate, multiple re-positioning of the tape tabs for better fit, with less waste.

WETNESS INDICATOR

alerts the caregiver that the brief has been soiled and needs to be changed.
