CE

The **Klip** is a lightweight posterior gait trainer for kids, teens and young adults with special needs who require support and assistance with their day-to-day walking.

Placed behind the user, the **Klip** is open in the walking position and allows freedom of movement while it promotes walking in an upright position. It is recommended for those with Cerebral Palsy and other neurological conditions.

The **Klip** can also be used in the anterior position for all sizes other than the XS size.

It is simple and safe to use, easy to fold and can be used as a basic posterior gait trainer or as a fully supported gait trainer.

**Height-adjustable to ensure proper fit and accommodate future growth.**  
**Foot-Activated swivel wheel lock with audible “click” enables easier and greater control.\* The On/Off one-directional rear wheels prevents walker from rolling backwards.**  
**Simple to disengage as walking skills improve.\*\***  
**Folds easily for compact storage and easy transport**

### 2 Wheeled

The 2-Wheeled Klip is specifically designed for users with significant balance impairments. It's two rear crutch tips provides extra resistance and is slower moving than a 4 wheeled walker.

*It is available in three sizes for toddlers, kids and young adults.*

### 4 Wheeled

The 4-Wheeled Klip provides maximum maneuverability with front swivel wheels that makes it easy to turn.

*It is available in four sizes to accommodate toddlers, children, teens and adults.*

### Outdoors

The 4-Wheeled Klip with 8" swivel wheels is excellent for those with an active lifestyle. The wheels are specially designed to allow easy navigation on all indoor and outdoor surfaces.

*It is available in four sizes to accommodate toddlers, children, teens and adults.*

### Flip-up seat

The 4-Wheeled Klip with a flip-up seat is a great convenience for users who may lack the endurance to walk for long periods of time. The seat flips up for walking and standing and folds down for sitting and resting.

*It is available in four sizes to accommodate toddlers, children, teens and adults.*

### Outdoors/Seat

Simple to use and maneuver the 8" wheels on this Klip allow for smoother rolling on both indoor and outdoor surfaces and is excellent on many fronts. The seat flips up for walking and standing and folds down for sitting and resting.

*It is available in four sizes to accommodate toddlers, children, teens and adults.*

*\*Not available on the 2 wheeled and outdoor models*

*\*\*Not available on the 2 wheeled models*

## ACCESSORIES

The **Klip** is a basic gait trainer with a choice of accessories designed to improve support, posture and mobility. It offers individualized assistive support.

The accessories can be easily added or removed as walking skills and needs evolve.

**FOREARM PLATFORM WITH HANDGRIP**

Fully adjustable forearm platforms are height and depth adjustable. The handgrips extend forward or back, supinate, pronate, rotate and are wrist-angle adjustable.
