

PulmoNeb® LT Compressor Nebulizer System

Low-cost, high-performance compressor nebulizer

When it comes to **low-cost, high-performance compressor nebulizer systems**, the PulmoNeb LT Compressor Nebulizer System fits the bill. This affordable yet advanced system was developed to provide superior clinical results. The PulmoNeb LT exceeds market standards and delivers **superior performance** making the PulmoNeb LT one of the best values on the market.

Intuitively designed, this system is easy for new and young patients alike to operate. Its profile is **sleek, compact, and lightweight**. In addition, integrated wire guides eliminate contact with moving parts and ball bearing connecting rod design further enhances the system's reliability.

DeVilbiss PulmoNeb LT Compressor Nebulizer System – Model 3655LT (Model 3655LTR with VixOne™ (disposable and reusable nebulizers available))

Performance & Design Features

- Small footprint and lightweight design make it easy to store and transport
- Darker body color **maintains its appearance** after a prolonged period of use
- Ball bearing connecting rod design equips the unit for years of dependable performance
- Internal wire guides eliminate interference with moving parts increasing reliability
- **Top-of unit connector facilitates easy attachment/removal of tubing**
- ETL listed as compliant to UL 60601-1 Medical Electrical Equipment Standard
- Maximum compressor pressure – **30 psig* or greater**
- Compressor free air flow – **12.7 lpm***
- One-piece porous polymer filter is readily accessible and has six-month life
- Tested to **at least 1000 hours** of life
- **5-year** limited warranty

VixOne™ Nebulizer

- Produces an aerosol with an MMAD of 2.7 microns
- Respirable Fraction – 84% below 5 microns
- Low residual volume (0.7cc) reduces medication waste
- High-capacity medication bowl (>10cc) accommodates varying therapy protocols
- Nebulizes in upright position or at angles up to 45°, allowing patients to **receive treatment in their most comfortable position**
- **Anti-spill tee design** provides secure seal

VixOne and AeroEclipse® Nebulizer Performance with DeVilbiss PulmoNeb®

This graph depicts the performance characteristics for the VixOne Nebulizer when paired with the DeVilbiss PulmoNeb.

Accessories

PART NUMBER PRODUCT DESCRIPTION

Aerosol Masks

PAM10	Pediatric Aerosol Mask (Case of 50)
DL1050	Pediatric Aerosol Character Mask (Case of 50)
AAM20	Adult Aerosol Mask (Case of 50)
AAM12	Adult Aerosol Mask (Case of 12)

Disposable Nebulizers

3655D-621	VixOne (Case of 50)
-----------	---------------------

Reusable Nebulizers

900D-610	VixOne (Case of 10)
----------	---------------------

VixOne Disposable Nebulizer with PediNeb™

3655PN-612	(Case of 12)
------------	--------------

Peak Flow Meters

600-112	(Case of 12)
---------	--------------

Compressor Nebulizer Carrying Bag

3655D-603	(Each)
-----------	--------

Filters

3655LT-601	(Pack of 5)
3655LT-602	(Pack of 25)

Technical Specifications

Built to meet HCPCS E0570

Size	5.75" W x 4.0" H x 6.0" D (14.6 cm x 10.2 cm x 15.2 cm)	Operating Temperature Range	+40° to +104°F (+5 to +40°C)
Weight	2.75 lbs. (1.25 kg)	Operating Humidity	up to 95% non-condensing
Electrical Requirements	1.2 amps, 115 VAC (±10%) 60 Hz	Storage/Transport Temperature Range	-40° to +158°F (-40° to +70°C)
Sound Level	56-60 dBA*	Storage/Transport Humidity	up to 95% non-condensing
Power Consumption	80 watts maximum	Supplied Nebulizer Capacity	>10cc
Maximum Compressor Pressure	30 psig* or greater	Supplied Nebulizer Nebulization Rate	0.24 ml/min*
Compressor Free Air Flow	12.7 lpm*	Supplied Nebulizer MMAD	2.7 microns

* Specifications are typical and may vary slightly from system to system.
