

REACT HEALTH

New Luna G3 CPAP and Auto-CPAP

React Health's all new Luna G3 CPAP and Auto-CPAP devices come standard with all the features that make sense for you and your patients. Our standard integrated cellular modem makes capturing patient compliance a breeze.

Our standard patient-forward features include integrated heated tubing, pre-heat humidifier function and Auto Ramp offering added comfort to patient therapy as well as a bedside clock and resupply reminders for the convenience of the patient. You will find these features and more, in a smaller footprint, with an easy-to-read full color screen and intuitive interface.
