

Features & Benefits

Feature	Benefit
81 30° LEDs	Provides 12 Joules of pain relieving energy in just 4 minutes using a concentrated beam.
Large Treatment area	Means more surface is covered.
Integrated Spacer Ring	Provides the optimal distance for the most effective treatment.
AC Power	Just plug it in.
Lightweight	Easy to hold. Even for extended uses.

- **JOINT PAIN**
- **MUSCLE STIFFNESS**
- **ARTHRITIS**
- **SPASMS**
- **PRE/POST SURGERY**
- **TMJ**
- **CRAMPS**
- **RECOVERY**
- **DAILY RELIEF AND VITALITY AND MORE!**

TECHNICAL SPECIFICATIONS

Wavelength	650 nm
Beam area at focus	10 cm ²
Power density at focus	50mw/cm ²
Power	110v AC
Number of LEDs	81

IMAGINE LIFE WITHOUT PAIN **630PRO**

MADE IN

U. S. A.

The MedLight MD630PRO is a safe, effective, noninvasive, over-the-counter alternative to pain relief medications. Using narrow band near infrared (IR) energy, the MedLight MD630PRO provides real pain relief. Near-IR energy from our patented design floods the treated area, increasing local blood circulation, creating a gentle warming sensation and temporary relief from minor pains such as Arthritis, Stiffness, Muscle Soreness and Joint Pain as well as Muscle Spasms.

The MedLight MD630PRO's 81 LEDs give it a large treatment area. The four minute cycle and alarm ensure optimal treatment times. The safe IR energy of the MedLight MD630PRO can be used as frequently as needed to relieve pain. There is no danger of overdosing. There is no additional benefit for 12 hours after (3) 4 minute treatment cycles.

Imagine Life Without Pain!

Pain is debilitating and can ruin your quality of life. Now, thanks to the MedLight you can get temporary relief of pain in as little as four minutes.

Get Control of your pain and improve your quality of life with the MedLight 630 PRO pain therapy device.

Utilizing NASA developed technology; the MedLight delivers pain relieving energy direct to the source. Within minutes you will experience increased local blood circulation, resulting in reduced swelling/inflammation and pain.

Pain Relief without utilizing potentially harmful drugs!

The MedLight provides fast, affordable pain relief without the use of potentially harmful drugs. The energy from the MedLight will not damage any tissue, has no side effects and is perfectly safe; this means that you can use it as often as you like. The more you use it the better it works (results are cumulative.)

Severity of the pain and whether the pain is chronic or acute will determine how often you need to utilize the MedLight to achieve maximum relief. Results will range from taking the edge off to total elimination of the pain.

What is Photo Light Therapy?

Photo Light Therapy, utilizes near infrared "Low Level Light Therapy" (Photo-Light / LLLT) technology, and is the latest breakthrough in drug free pain management. The human body is a complex structure. Pain emanates from nerve sensors in soft tissue where the cells are electrically charged; however, when the cells are damaged they lose that charge. The Photo Light energy delivered by the MedLight re-energizes the affected cells, reduces the inflammation and increases local blood circulation, resulting in the temporary relief of pain.

Increased Range of Motion and Mobility

If you are suffering from stiff or sore muscles or joints, the MedLight 630 PRO may increase your range of motion and increase your mobility. This is a direct result of reducing inflammation, relaxing muscle tissue and relieving the pain of sore and stiff muscles and joints.

* Individual results may vary. This is a high-tech pain therapy device.
