

Molift RgoSlings

Excellent ergonomics for
comfortable hoisting

 **etac**[®]

Molift RgoSlings

Molift has a long reputation for manufacturing high quality hoists and slings. RgoSling is a portfolio of slings developed to meet the demands for the everyday needs in healthcare.

Maximum Comfort

All our slings are designed to distribute weight and pressure evenly for maximum comfort. As Molift is committed to comfort and safety we offer a wide range of various models and sizes. We recommend individual testing. We have a colour code indicating sling size to facilitate a quick and easy selection.

Anatomical shape

Molift RgoSling has an anatomical shape and a fitted cut with fixed padding both in the back and leg parts. The anatomic design allows for the natural curvature of the spine and stops the user from sliding. In combination with the balanced weight distribution, a safe and comfortable hoist is achieved.

Unique sliding loop function

The unique sliding loop function in the shoulder straps, balances the weight distribution in every stage of the hoist, making it very comfortable to hoist from a lying to a sitting position and vice versa. Thereby an external angle adjustment of the sling bar is redundant.

Scandinavian Design

Molift slings are designed in Norway, applying the same high standards as it does to Molift hoists. All the slings have been approved according to quality standard EN ISO 10535. We recommend the use of a 4-point sling bar for comfortable hoisting, but the slings may also be used with a 2-point sling bar.

Sliding loops

Sliding loops on head straps. Making a smooth transfer from lying to sitting position. Ensures a comfortable and safe position for the patient.

Colour coding

Colour coding of hoisting loops helps you find the right fit.

Comfortable padding

Padding in back and leg support distributes the weight over a larger area, making the sling more comfortable for the user.

Labelling

Clear, practical information on a highly visible label. Washing instructions and technical information are found in a protective pocket at the back.

Guide straps

Guide straps assist with positioning during the lifting process.

Application pocket

Pockets in the back and on the leg supports make application easier.

Standard models: HighBack and MediumBack

Our standard models are designed for use in the usual transfer situations and are suitable for most users. The standard models are available in two back heights: HighBack and MediumBack.

Models with specific features

We know that users have many different requirements, so we've designed additional models with specific features to meet their needs, including the RgoSling Toilet and RgoSling Amputee.

Molift RgoSling HighBack

Standard leg support opening

- Sliding loops on head straps.
- Support for the entire back and the head.
- Hoisting to and from a lying or a sitting position.
- All-round sling that fits most users.
- Hoisting from floor.

Molift RgoSling MediumBack

Standard leg support opening

- Sliding loops on head straps.
- Suitable for a user with headcontrol.
- All-round sling that fits most users.
- Adjust the sitting angle by the leg straps.

Facts

Materials

Polyester

The standard polyester fabric is durable and hard wearing. The material is easy to maintain and has a dirt repellent surface.

Polyester net

Hard wearing and durable soft net fabric, breathes well and dries quickly. Suitable for shower and bathing situations.

Non-woven

Polypropylene non-woven. Patient specific slings when the sling is for short term use.

Durable polyester

Extra strong durable polyester fabric for products that has a weight limit up to 500 kg. The material is easy to maintain and dries quickly.

Detailed information

Size	Recommended user weight
XXS	12 - 17kg
XS	17 - 25 kg
S	25 - 50 kg
M	45 - 95 kg
L	90 - 160 kg
XL	160 - 240 kg
XXL	230 - 300 kg

Washing instructions

Washing temperature 60-85°C / 140-185°F
Washing at higher temperatures wears out the material faster.

All slings have a maximum user mass of 300 kg.
Some exceptions exist which are specified under each product.

Accessories

Molift RgoSling Extension Loops

Straps for easier adjustment
RgoSling: Used to extend the hoisting straps, flexible for 3 different length.
N:B: Order 2 for a pair.

Immedia SlingOn

When the user can't be turned onto their side Immedia SlingOn used with a folding technique makes it possible to apply the sling without first turning the user over to the side.
Washing in 80 °C or 176 ° F.

Molift Strap Marker

For marking a selected hoisting loop for head or leg support hoisting straps. Mark the hoisting loops selected during individual testing of the sling.
