## The Omni Difference

Omnimed's narcotics cabinets have been servicing the healthcare industry for the past 40 years. The cabinets are made in our Moorestown, NJ plant by our veteran team. Our uncompromising desire to fabricate the best product in the world insures you will get decades of use from our cabinets.

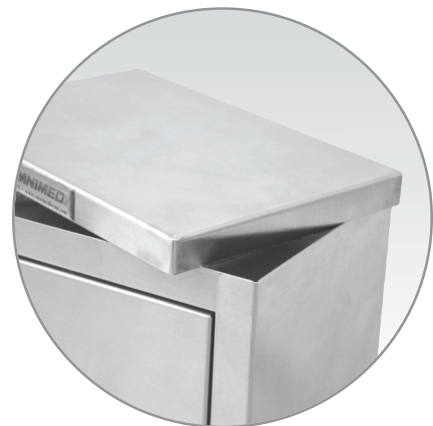

### Double Door Narcotic Cabinet

The Omnimed Narcotic Cabinet is constructed of 301 grade stainless steel and features an industry leading 10 year warranty.

### Triple Bolt Locking System

The Tri-Bolt locking system features a wafer lock, which is impossible to pick and much more secure than a flat key lock. This locking system also features 3 separate lock pins on the top, bottom, and side of the outer door that are controlled by the wafer lock. It will require a great deal of time from a trained locksmith just to defeat the outer door.

The Ambi-Top feature allows the cabinet to be oriented for left or right hinge door opening!

**Meets All Schedule 2 Drug Storage Requirements!!**
