

PRISM LIGHT PAD

Whole-Body Red Light Therapy

Prism Light Pad is the industry's most adaptable, portable and affordable whole-body red light pad.

30-minute red light therapy sessions will benefit your clients by:

- Rejuvenating the skin and body
- Relieving inflammation
- Stimulating collagen production
- Reducing sore muscles, aches and pains
- Enhancing relaxation

Prism Light Pad users can expect improvement in aesthetics and whole-body wellness.

Massage

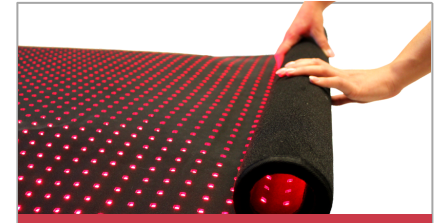

Relieve soreness and inflammation in the area of focus. Improve healing throughout the body 4-10 times faster post massage.

Facial Treatments

Promote "Zero Downtime Recovery" from aesthetic services and facial treatments that cause redness and inflammation.

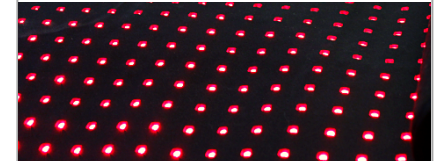

Prism Light Pad sessions will boost healthier, younger looking skin by reinforcing firmness, elasticity, smoothing wrinkles and cellulite, reduce the visibility of scarring from head to toe.

Most Adaptable & Effective

The Prism Light Pad uses 660nm and 850nm wavelengths and covers 50mW/CM².

With 2,200+ LEDs per pad Prism Light Pad is the most powerful on the market

Prism Light Pad is the only pad available that you can lie on.

User-operated, with one-button automation.
