mechanical baby scale series

THE RICE LAKE MECHANICAL BEAM BABY SCALE is a safe, reliable tool for the accurate measurement of infants and individuals up to 135 pounds (61 kilograms). Available in either kilogram or pound/kilogram models, this infant scale features an enameled steel body that supports a straightforward and sturdy dual-read die cast beam.

Cradle infants in comfort with the ABS plastic tray that is easy to clean and offers a built-in measuring tape for quick length reference. For fast mechanical measurement, the portable Rice Lake mechanical beam baby scale is a must-have device for busy hospitals, clinics and nurseries.

| | RL-MIS | RL-MIS-20 |
|--------------------|--------------|-----------|
| Capacity | 135lb (61kg) | 61kg |
| Graduations | 1 oz (20g) | 20g |
