Med - 30 steps/min >>

Fast - 40 steps/min >>>

The Voltstair Titan is a motorized hand truck capable of ascending and descending 100+ flights of stairs on a single charge. The Titan has built in tracks, and was designed to transport large, heavy, and unwieldy items in the safest way possible. This hand truck keeps employees, reduces the risk of property damage, and increases efficiency by allowing a single team member to accomplish more in a shorter timeframe.

## Battery Operated

The Voltstair Titan can ascend or descend over 100 flights on a single charge.

## Built-In Tracks

The foldable tracks work on almost any staircase without leaving a trace.

## Portable

Folds up to just 14" thick for storage and transport.

## Increased Efficiency

Let the tracks do the heavy lifting, and accomplish more with smaller teams.

# VOLTSTAIR TITAN FEATURES

The Voltstair Titan's foldable motorized tracks make it possible for one team member to transport up to 440lbs up and down stairs. It also come standard with flatground wheels on the bottom, as well as locking wheels for safe storage and transport.

Arrives fully assembled, and does not require special stairs or pre-installed tracks of any kind. The handlebar houses a digital battery display and user-friendly controls on the top, and a professional-grade ratchet strap.

The tracks were specifically designed to provide safe transport on any material, and lock automatically when the ascend or descend buttons are not being pressed. The wheels come equipped with lockable foot brakes.

# VOLTSTAIR FEATURES (Cont.)

The Folds up to just 14" thick, and was designed to be transportable in almost any vehicle. The unit can go from folded to storage to operational in just seconds.

Capable of carrying 440 lbs in professional and residential settings.

With a quiet battery powered motor and tracks which were specifically designed to operate on almost any surface without leaving a trace, it's easy to use the voltstair discreetly in any setting.

# ACCREDITATIONS

## Increased Bandwidth

Don't tie up a whole crew when one laborer can get the job done. The Voltstair Titan is an investment that will pay for itself in as little as one month by increasing efficiency, as crews are able to accomplish more, faster, with its help.

## Decreasing Damaged Property

The Voltstair Titan helps reduce the risk of property damage by removing the strain and stress of moving large and unwieldy objects. The Titan's tracks are specifically designed to eliminate the risk of damaging stairs, and can function on wood, carpet, cement, stone, and tile without leaving a trace.

## Keep Employees Safer

If done incorrectly or over a long period of time, moving large heavy objects can be damaging to the physical health of crewmembers. Make sure your employees remain safe and healthy by protecting their physical wellbeing on a daily basis.
