

The PHS Medical Lift Boxes are designed for patients undergoing physical therapy and rehabilitation. Made with hardwood plywood construction, they are robust and can handle a 100 lb load capacity. The Lift Boxes feature four handgrip slots, two on each side, for hassle-free handling. Our 4 lift boxes vary in both size and shape and are perfect for rehabilitative patients to gain confidence and strength by performing a variety of workplace related tasks.

LIFT BOX STANDARD FEATURES:

- Load Capacity: 100 lb.
- Hardwood plywood construction
- Two hand grips on each side
